

ASCHA ENERGY PROGRAM: PUTTING A LID ON ELECTRICITY AND NATURAL GAS EXPENSES

The **ASCHA Energy Program** has been powered by **8760 Expense Management** for over a decade. ASCHA members have benefited from the program as it is designed to optimize, contain and reduce electricity and natural gas expenses.

THE PROGRAM OFFERS:

- **THE BEST PRICE** – by aggregating ASCHA members together into a large pool of business, the public tender process has resulted in **extremely competitive prices** in the past for participants. This can have a very positive impact on containing/reducing utility expenses.
- **TRANSPARENCY AND CONTROL** – by participating in the ASCHA Energy Program, members gain transparency with respect to the margins and fees being charged on utility usage and ultimately creates better control over the available options and getting the optimal price.
- **MANAGED PROGRAM** – The ASCHA Energy Program is managed by 8760 which includes helping with any billing issues, site adds and drops, budget creation, data analytics and trending, and industry insights into current and forward pricing conditions.
- **360 DEGREE MANAGEMENT** - ASCHA members benefit through a 360 degree approach to managing utility expenses. This means that all aspects of the bill are reviewed for optimization, including delivery charges and/or the commodity price, which helps to put a lid on utility expenses.

		TOTAL DISTRIBUTOR CHARGES	
		2,081.02	
		Total Charges for Site	
		3801.88	

**FOCUSES ON
THE ENTIRE BILL:
GOAL IS OPTIMIZATION**

SPRING PUBLIC TENDER: ELECTRICITY AND NATURAL GAS PRICES

As part of the ASCHA's Energy Program to provide strategic solutions to help manage the "top part of the bill", a fall Public Tender will be conducted to secure electricity and natural gas prices.

- By participating in this tender, you stand to leverage the buying power of many like-minded ASCHA and public sector customers which will secure you a better price than trying to secure pricing on your own.
- The deadline date to confirm participation in the tender is **MARCH 15, 2021**.

ALREADY UNDER CONTRACT? NO PROBLEM!

If you already have your electricity and/or natural gas under contract with a Retailer, that is not a problem. Through this tender, we will be contracting as follows:

- Electricity prices can be secured for 1 to 5 years (max end date December 2025)
- Natural gas prices can be secured for 1 to 8 years (max end date December 2028)

That means if you are currently under contract until 2022, for example, we can help you procure for the years beyond that date for whatever term length works for your needs up to the end dates indicated above.

NEED MORE INFORMATION OR WANT TO TALK STRATEGY?

We know this is an important decision for your organization and we want to make sure you can make an informed decision. If you would like more details on the program, the public tender or want to talk about strategic options for your organization, the ASCHA and 8760 are here to help.

Please contact **Ken Klassen at 780.289.7198** or **kklassen@8760.ca** for more information.
