Education Associate Member Benefits

Introduction

ASCHA previously expanded its Associate Member classifications and added an Education Associate Membership sub-category. This sub-category creates an opportunity for organizations who require access to a Learning Management System (LMS) with all the required training modules for their employees, without having to purchase, develop tutorials, and manage their own LMS. These organizations must not be eligible for [Regular Membership](#).

ASCHA offers its members many benefits and services. Some of the major benefits we offer to our Education Associate Members include the following:

Education

ASCHA provides leading education that supports and encourages operational excellence through [The Learning Centre](#), ASCHA's Learning Management System (LMS).
